NOTICE OF DETOUR OF ELROY ROAD

The following detour plan is scheduled to allow for improvements to be made to Elroy Road. Until approximately December 2007, Lone Star Infrastructure will be conducting roadway improvements to Elroy Road.

Beginning July 10, 2007*:

- Elroy Road will be closed at the SH 130 alignment from both directions.
- Traffic heading west on Elroy Road will use a temporary frontage road to travel north to Pearce Lane, cross the SH 130 alignment and head south on FM 973 to access Elroy on the west side of the alignment.
- Traffic heading east on Elroy will take FM 973 north to Pearce Lane, cross the SH 130 alignment and head south on a temporary frontage road to connect with Elroy on the east side of the alignment.
- The target opening date for Elroy Road is approximately October 2007.
- Upon implementation of this detour, a police officer will be stationed during peak hours at the intersection of the temporary frontage road and Pearce Lane to facilitate traffic control.

** NOTE: All dates weather-dependent. This closure is affected by construction efforts of both Lone Star Infrastructure and Travis County.*

For further information, please do not hesitate to contact Dan Susong of Lone Star Infrastructure at (512) 681-6081 or dan.susong@lsijv.com. Please also visit the project Web site at www.sh130.com for additional information.
