US 79 TO BE SWITCHED TO NEW ALIGNMENT

The following plan for the construction of the interchange of US 79 with the future State Highway 130 was finalized.

- Beginning December 16, 2005* at approximately 7:30 p.m., eastbound and westbound US 79 traffic will be switched to a new alignment.
- Motorists will continue to have access to the same intersecting roads as are available to date. The Hutto Baptist Church and Venture Blvd. traffic will have access to both directions of US 79.
- Please note that various lane closures will precede the actual switch in order to remove existing striping and prepare the roadway for the traffic switch.

** Dates subject to change due to utility relocation work and weather. Please refer to the message board and additional signage in the area and visit www.sh130.com for specific dates as the information becomes available.*

For further information, please do not hesitate to contact Rob Frazer of Lone Star Infrastructure at (512) 681-6288 or rob.frazer@lsijv.com.
