Building 2, Suite 200  
Pflugerville, TX 78660  
(512) 681-6000

# NOTICE OF CLOSURE OF CR 102

---

Lone Star Infrastructure was selected by TxDOT to design and construct State Highway 130, a new tollroad scheduled to open by December 2007.

After working with appropriate local and state officials, the following detour plan for phase one construction, along with the enclosed maps titled "PHASE I" and "LATER PHASES", was created to provide access for the community.

The construction of SH 130 from Hwy 29 to CR 104 is scheduled to begin in December 2004. As part of the construction operations, the following will occur:

- CR 102 will remain open from SH 29 to Indian Creek Drive
- CR 102 will be closed in the Rock Dove Lane area
- CR 102 will remain open from south of the residence located on Mankins Branch to CR 104 for local traffic (individual residences and businesses)
- Home owners in the Rock Dove Lane area will have access to the Georgetown Inner Loop via Covey Lane to Meadow Park Lane, and then to Churchill Farms Drive
- A temporary tie-in connection for construction traffic between CR 102 and Meadow Park Lane will be constructed
- Residential subdivision construction traffic will access work sites by way of CR 102 from SH 29, and then cross a temporary construction connection to Meadow Park Lane

Successive phases of SH 130 construction are planned around maintaining subdivision access for construction traffic from the east over the old CR 102/temporary construction connection until the final southbound SH 130 frontage road is complete. At that time, the new frontage road will provide access from the east.
